**Subject:** Genetically Engineered Foods should have WARNING LABELS!!  
  
**Sensitivity:** Personal

We feel it is an outrage that our consumer rights are ignored as well as our health all in the name of money. Of course we should be able to make our own choices in what we have in our food and put in our bodies. We should definitely have labels identifying genetically engineered foods.  
May God Be With You In Your Decision!

Love ya,  
Scott & Kathy
